

BESPOKE PERMIT APPLICATION – PLANNING STATEMENT

Project: London Southend Airport
Purpose: Surface De-icer Drainage Discharge Permit Application
Document Ref: CS044190-BPA-010
Revision: A – 10.02.14
Author: Mark Barrell, Engineer, Capita
Checked: David Sullivan, Director, Capita

PLANNING APPLICATION STATEMENT WITH RESPECT TO DE-ICING OPERATIONS

The proposed de-icing operations at London Southend Airport (LSA) are to be implemented in accordance with the airport's management system. Surface runoff from the areas shown (refer to drawing 044190-CPI-BPA-ZZZ-DSK-CE-001) will drain via the existing site drainage to outfall. No additional development is proposed as part of this system.
